Is there anything else we should know about your dog? _____

At Barking Oaks Pet Resort, we personalize your dog's training to meet your needs. However, there are some issues that your dog may not display during training as it would at home. These issues will be discussed between trainer and owner before the dog finishes his or her training. A plan of action will be given to the owner should the dog display more of the unwanted behavior. How well your dog learns commands depends on a number of variables, including breed characteristics, temperament, and history/learned behavior. It is the responsibility of the owner to maintain training and consult with trainer about unwanted behaviors that continue or occur.

Vaccinations

All dogs that come for training must be fully vaccinated by a licensed veterinarian. Owners must show documentation of current vaccinations and have a copy on file. We will not accept a dog for training who has had any vaccines within ten (10) days. Any dog that has not received its full schedule of vaccinations, including Bordetella, Parvo/Distemper, and Rabies will not be allowed to participate in a training program.

Accidents/Illnesses

At all times, we strive to provide the safest experience possible for all dogs in our care. Though accidents can happen, they are usually minor and cause no problem for the animal or animals involved. Owner will be immediately notified of accident or illness and details will be marked in dog's file. In the event of accidental injury or illness, or if the state of the dog's health otherwise requires professional attention, Barking Oaks Pet Resort may engage the services of a veterinarian and the resulting bill will be paid by the owner.

Training Pass Down

The training pass down at the end of the training period is as important as the training itself. This process is two-fold. First, temperament problems and issues that occurred during training will be discussed. We will watch a short video taken of your dog doing everything that he/she was taught and go over any questions at that time.

Second, trainer will do a live demonstration with your dog while owner is out of sight. After the demonstration, trainer will coach owner on how to properly handle their dog in the future. This sets the foundation on which you can build better communication with and encourage good behavior from your dog. We will also discuss the daily practice required to maintain and improve your dog's level of obedience and behavior.
